

BARCELONA • WEEK 1 LAUNCH

Barcelona has clubs. Most people get the legal reality wrong.

That is exactly why SocialClubsMaps exists.

Not for hype. Not for shortcuts. For visitors who want clarity, context, context, and a better filter before they trust anything.

Do it right, not fast.

Launching officially today.

WHY PEOPLE GET IT WRONG

Most advice online collapses three different things

Law

What Spanish law actually says, and where the risk begins.

Practice

What clubs, locals, and police often treat as normal.

Policy

What one specific club decides to allow, reject, or require.

When people confuse those three, they either get overconfident or get played.

THE LEGAL REALITY

Private is not public.
Tolerated is not
risk-free.

PUBLIC-SPACE FINES

**EUR601-
30000**

commonly cited range for public
possession / use

BARCELONA 2024

30 closures

reported first closure orders in the
city's campaign

MAIN RISK SIGNAL

**commercial
look**

tourist-business behavior raises
exposure

SCM is built to help you separate useful information from
from false confidence.

Information, not legal advice. Always verify club status independently.

BARCELONA IS NOT AMSTERDAM

This city sits inside
tourism pressure,
commercial pressure,
and local scrutiny.

 What bad content does

Turns clubs into entertainment products for
for passing tourists.

 What better content does

Explains the city, the tension, and why
discretion matters.

That is the lane SCM is choosing from day one.

WHY SCM EXISTS

A small verified set
beats a giant
unvetted list.

 Registry & statutes

Does the club still look like a private association, not a public-facing shop?

 Physical & access posture

Does the place behave with discretion, controlled access, and basic seriousness?

 Onboarding sanity

Does the process feel responsible, or does it scream shortcut culture?

 Ongoing trust

Would we still feel good sending a careful visitor there tomorrow?

OFFICIAL LAUNCH

Launching officially
today.
4/20 felt fitting.

If Barcelona is on your radar, start with the map built for people
who want to do this right, not fast.

socialclubsmaps.com

Start with the Safety Kit. Then move smarter.
